Machine Learning-Based Predictive Analytics for Aircraft Engine

PNT2022TMID45954

Says

- What about Previous Achivements?
- Need more data for feeding
- Old data of Engines may be Different?
- Old data engines may be different ?
- About Data Consistency?
- What about Existing System ?

Thinks

- Complex to understand the mode
- Accuracy can be improved,
- Will the model be used for sustainable purposes
- About Prediction Accuracy
- Results and Predictions !
- Too many technical keywords

Does

- Maintenance
- Makes small changes
- Expert reports
- About Previous Malfunctions with Engines
- Major Faults
- List pros and cons

Feels

- Machine Learning Feeds data
- Use Advance Tools
- Interested and excited
- Further upgradation depending on outcome
- Use Advanced Tools
- Can Change Aviation Technology
